

SnakePit's exclusive Encapsulated Magnet System makes locating your access boxes easier by magnifying the ferromagnetic signal!

The only magnetized tracer box which effectively amplifies the ferromagnetic signal. The result is clear — and you can hear it for yourself. Magnetized Tracer Boxes that are easier to find, every time.

ANTI-CORROSION TECHNOLOGY

Corrosion and oxidation of wires is never a problem with the SnakePit. Each Magnetized Tracer Box features a corrosion-resistant brass wire lug and a wax pad to cover wire connections after installation. Wax pads block out moisture, are reusable and conform to irregular surfaces. Secure it, cover it, and don't worry about it — your wire connection will be protected by SnakePit.

INSULATED DIRECT CONNECTION

Time is money. Thanks to SnakePit's Insulated Direct Connection you never have to remove the cover to access your tracer wire. Simply hook-up your locator transmitter directly to the brass connecting lug. Signal loss is a thing of the past.

COLOR-CODED COVER

SnakePit's Cast Iron covers are color-coded according to American Public Works Association (APWA) standards. What does that mean for you? Instant recognition of the utility you are tracing.

LOCKING COVER ELIMINATES TAMPERING

SnakePit also features a pentagon locking cover that stops would-be tampering from creating unnecessary problems.

There is a SnakePit Magnetized Tracer Box for every job.

All SnakePits feature the UNIVERSAL insulated direct connection hook-up with anti-corrosion technology and APWA color coded locking covers.

Cast Iron

All SnakePits are available with a cast iron cover. The Lite Duty boxes are also available with an optional durable ABS cover.

ABS

LITE DUTY BOX

This SnakePit is designed for light traffic areas such as yards and ditches. Also perfect for retrofitting existing sites.

LD14*TP

LITE DUTY ADJUSTABLE BOX

The adjustable SnakePit was designed for locations in which the soil is unsettled. You can adjust your SnakePit to be level with ground for a flush fit.

LD14*TP-ADJ

LITE DUTY XL BOX

All the benefits of the Lite Duty but with a Posi-Lock pull out restraint & anti-sink flange adaptor. Perfect for all new construction where shifting soil may be an issue.

LDXL36*TP

ROADWAY BOX

The toughest and strongest of all SnakePits. With its 5" top flange it can take the constant beating of heavy traffic.

RB14*TP

CONCRETE/ DRIVEWAY BOX

Complete with a 6" top flange, this SnakePit is ideal for all concrete/ driveway applications.

CD14*TP
